02.10.2014 – 05.10.2014

Dear President,

The National Predators Group "gn-carla" and the French Angling Federation in Fresh Water are very pleased to invite your national team for the 7th World Championships Predator Boat Fishing with lures. These championships will held from 2nd October until 5th October 2014 on the Lake du Bourget in Aix les Bains in France.

We are looking forward to your visit and participation to this contest and we are very proud to welcome you.

*Paul-André RASCLE
President*

INTRODUCTION

The 2014 World Championships will be hosted in Aix les Bains, a beautiful thermal town situated in the heart of the Alpes, in the Savoie region. This city is well known with the Casino, its horseriding center and its national golf.

With its 4450 acres, the Lake du Bourget is the biggest natural lake of France with a great ecologic interest. This lake represents an important element of the french natural culture as 34 fish species live in it.

We have been organizing here every year for 8 years now a magnificent angling competition for predators with lures that can welcome from 40 to 70 boats. Many sanders, pikes and perchs are caught every time with many catches over 1 meter long.

Only 2 small areas representing less than 2% of the total lake will be prohibited for fishing activity: from the exit of the big port and the zone reserved to the nautic activities (ski).

The organisation will provide you a detailed map.

During these 7th World Championships, the following fish species will be counted:

- **Pike** **50 cm**
- **Sander** **40 cm**
- **Perch** **25 cm**

Boats / Boat Hire

Boats: recommendations

It is required to attend this championship on the Lake du Bourget with a well-equipped boat. The huge immensity of water and heavy winds require boats of 4.50 meters long and equipped with an engine of 20cv. A reserve in fuel of 20 to 40 liters is necessary on board.

Only 2 categories of boats are available:

- boats hired by the Organization**
- boats provided by the Nations**

Boats hired by the Organization

The Organization will make some arrangements for boats to be provided by individual anglers in the area, the boats owners will pilot the boats and will also act as stewards during the championship. The boat (4.60 meters long) will be equipped with a thermal engine of 40CV, with a front electric engine, with a recent Hummingbird or Lowrance fishfinder and with the required life jackets. The Organization will give at your disposal equal quality boats.

Boats will be driven exclusively by their owner.

Boats will be drawn every morning from Thursday to Sunday before the competition and while the competition. Consequently, duo anglers cannot get the same boat for 4 days.

- While pre-fishing, a manager can be on board but he is not allowed to fish. So the boat can welcome the owner, 2 competitors and a manager maximum.
- During the competition, the skipper will be considered as a commissioner. So the boat can welcome the skipper (owner and commissioner) and 2 competitors.

The cost amounts to 275 € every day with the fuel included.

With the choice of a location, Nations accept that the Organization cannot be accused of preferential treatment by attributing boats through drawing every morning. All claims concerning the result due to the quality of the boats will not be accepted.

The reservation of the boat must be done before the 30th July 2014.

The Organization will do the best to provide a maximum of boats. But the number of boats must be defined as soon as possible. In case of a lack of boats, Nations will be served by the order of the reservation.

Location and payment must be done direct to the Organization (pa.rascle@hotmail.fr) before the 30st July 2014.

Boats provided by the Nations

Nations are informed of the length and the minimum power of the boats they can use. The Organization reminds that the boats can carry 3 to 4 people at least with fuel and safety tackle included.

Boats provided by the nations (ownership or location) can welcome while pre-fishing 2 competitors and a manager (he is not allowed to fish) which means 3 people maximum. During the competition, a commissioner will be drawn every morning on Saturday and on Sunday. He will set up in the boat provided by the nations with the 2 competitors but he will not drive or pilot the boat.

OTHER REQUIREMENTS:

Boats mooring

All boats, hired by the Organization and provided by the Nations can be moored to a platform reserved by the Organization in the port from Thursday evening. From Friday evening, the mooring of all the boats to the reserved platform will be compulsory. They will be under control.

Official Regulation of the FIPSe

Some general rules of the official regulation of the FIPSe must be modified to respect some local safety requirements:

- **Fish size**

Fish size will be counted in cm2 from:

- Pike 50 cm coefficient x 1
- Sander 40 cm coefficient x 1
- Perch 25 cm coefficient x 1

- **Article 12 :**

The French fishing law allows a lure to have only 2 hooks maximum. Consequently, the last sentence of the article 12 must be read as following:

Lures can be equipped with a single, a double or a treble hook with a maximum of 2 hooks (pork grease is accepted).
